ELCA

The Electrical Consultant's Association (ELCA) was founded and registered in 1990 at Bangalore by a group of dedicated consulting professionals actively involved in the field of electrical consultancy.

ELCA was formed with the following main objectives:

- To create awareness amongst the electricity consumers towards a better and safer quality of electrical installation.
- To provide a platform for interaction between the manufacturers and the end users by way of arranging technical seminars, workshops, exhibitions etc.
- To take up such technical aspects with the statutory authorities as are relevant for a proper and safe installation, considering the present trends in the design of the systems and development of electrical products.
- ELCA is a body having several experienced and recognised consulting professionals as its members. Many of its members have been associated with prestigious electrical projects in the public and private sectors.
